

I am a paying customer of satellite radio and enjoy the benefits of commercial free radio and instant local weather and traffice reports. The instant traffic reports is a huge reason as to why I have satellite radio. Listening to the traffic report as soon as I get into my car gives me the ability to change my route if necessary to get to work on time without having to wait for traffic reports at certain times of the hour on the FM or AM stations. Living in Orange County much of the LA radio stations focus on the LA area freeways and report only big accidents on the Orange County freeways. I enjoy being able to find out if the traffic is just slower than normal or if the freeways are clear. XM satellite radio is one of the best purchases I have made when I bought my new car. Having the freedom to choose to from all different genres of music, news and entertainment has made the monthly fee very worthwhile to me. I urge you to allow those of us who have made the choice to pay for our satellite radio to be able to keep it the way that is, if we didn't love it so much we wouldn't be paying for it every month.
